## Single-Stream Recycling Program

Steps towards a more sustainable campus community.

### What is single stream recycling?

Single stream recycling means that all recyclable items can be placed in a single bin, including paper, plastic, aluminum and more. Sorting of the items is done at the recycling plant.

### What are the benefits of single-stream recycling?

- Saves space and reduces the need for multiple bins
- Lowers labor time and cost
- Easy to use
- Accepts a wider range of items
- Reduces the number of trucks on the road for transportation, lowering emissions and reducing wear on roads

### Acceptable Items:

### Unacceptable Items:
